

Maidics Dávid

Full-stack developer

dmaidics03@gmail.com | +36 20 351 2677 | [Website](#) | [LinkedIn](#) | [GitHub](#)

SUMMARY

Junior full-stack developer with production experience in JavaScript/TypeScript and extensive .NET experience, building toward performant, maintainable applications. Shipped a large multi-tenant, full-stack application as thesis work, an open-source NuGet template and sports-team website alone, end to end.

PROJECTS

Payment facilitator & pass handling application for gyms

Thesis work

- Multi-tenant, full-stack application for handling payments and passes for gyms
- Built-in request (ticketing) system
- Solo thesis work
- Technologies: ASP.NET Core, Stripe & React
- See GitHub for more details: [backend](#), [frontend](#)

ASP.NET Vertical Slice Architecture Template

Open-source

- Modern and lightweight template for ASP.NET with minimal dependencies
- Uses GitHub Actions pipeline for continuous integration (CI) and NuGet publishing (2.3k+ downloads)
- Reduces boilerplate setup for vertical slice architecture applications
- [NuGet](#), [GitHub](#)

MECA Veszprém Basketball Academy website

- Solo work, news and match posting website for MECA basketball teams
- Currently in demo mode for company registration purposes
- Further development by me planned for next year: administrative features and webshop
- Created with Next.js, Tailwind CSS and Cloudflare technologies
- See demo: <https://mecakosarsuli.hu>

Portfolio website

- Modern glass UI feel with sharp edges and morphing effects on desktop
- Created with TypeScript, Astro, i18n, Cloudflare technologies
- Available: <https://maidics.net>
